

## SPORTING NEWS

### BETTING AND POOL SELLING ILLEGAL.

(Canadian Associated Press Dispatch)  
Boston, Mass., April 1.—Betting and selling pools on horse races in Massachusetts is illegal according to a decision rendered today by the full bench of the Supreme Court in the case of the common weal against Robert Rosenthal, who was found guilty of the offence last Autumn by a jury sitting at Dedham. The court holds, that while purses and premiums may be offered to enter in races the legislature did not intend to legalize betting or pool selling. Rosenthal was arrested at the Grand circuit meeting at Needville last season.

### TEGLEN-NORRIS MEDALS.

The medals presented by this firm to the city hockey league, and which will be presented to the Champion Intermediate this week, are the most red and most expensive decorations given under similar auspices in the city.

They are solid gold and of the medal-like design, being specially built to wear with a watch. The front bears the inscription: "1907, First City League Champions, Edmonton." On this side are also two hockey sticks, crossed with the ribbons on either side and tucked below. In size they are slightly larger than a 25-cent piece. The reverse side is plain, and the names of the players receiving the decoration will be engraved thereon. Those who will receive the souvenirs are: Grady, Haskell, Johnston, Newman, Clarke, C. Sanford, E. Bolander and Hume.

The design and workmanship throughout is the product of Jackson Pratt's, the well-known city jeweler, in whose windows the trophies are now on exhibition, and are attracting considerable attention righted out in the intermediate colors, green and white.

### CITY LEAGUE FOOTBALL.

One thing the promoters of the City Football League need to insist on when framing their constitution and that is that every player on any team must needs be a resident of the city on or before a fixed date in each year, so that no player is allowed to leave after the season has begun and stay away a few weeks, and not more than twenty-four hours should be allowed in which to enter protest.

If possible it would be well to explicitly define the territory from which each team can draw upon for players. The City Hockey League had numerous special sessions all winter simply because the constitution was not drawn up with sufficient care as to the points of allotting territory for the different teams to pick players from, and because permits were obtainable so long as the team wished to work new recruits had the dollars necessary to procure the certificates.

In fact, in drawing up the league rules and regulations, President Moore and Secretary Gillespie, of the Hockey League, could give the footballers a lot of valuable information which they picked up over the winter in handling the civic league association.

### COAST LEAGUE NICKNAMES.

Vancouver—Canucks.  
Seattle—Grizzlies.  
Astoria—Woodchoppers.  
Bette—Miners.  
Spokane—Indians.  
Tacoma—Tigers.

### CALGARY CLUB DATES.

Herold, Manager, Thys has arranged the following exhibition games for the Calgary team on their way west to start in the Western Canada League.  
Dorchester Athletic Club, April 28.  
Portland, Me. State League team, May 1.  
At Nashua, N.H., State League team, May 3.  
At Manchester, the State League team, May 5 and 6.  
Concord, May 8.  
The Montreal Eastern League team, May 7 and 8.  
The Ottawa team, May 11 and 12.  
The dates for the 19th and 19th are open to yet.  
After playing the Winnipeg team, the Calgary men will come on to Edmonton, where they open May 21 and 22.  
His players will report in Boston in the latter part of April, and put in a little practice before the game with Dorchester.  
The uniform which the Calgary club will wear during their victorious procession around the league circuit will be very neat ones. They will be light blue with white trimmings. The cap will be of the same pattern. The word "Calgary" will adorn the neatly adorned of the coming prizes of the city.

### CHESH CHAMPIONSHIP.

Winnipeg, April 1.—Dr. Edmund Lasker Saturday night defeated Frank Marshall in the third and concluding game of the series in the championship chess match assigned to this city. Marshall resigned after the twenty-first move. Fourteen games have been played, the score standing even in favor of Dr. Lasker and seven draws. The remaining game will be played in New York.

### PENHART IS AT LETHBRIDGE.

Lethbridge, April 1.—The pennant which will be striven for by the four clubs in the Western Canada Baseball League arrived in Lethbridge, and is now on exhibition at the Dallas Hotel, adorning one of the walls. The hunting consists of a blue ground, with red trimmings, and bears in large letters the inscription, "Champions, 1907."

C. J. Ekstrom has also on exhibition the medals which Bruce Robinson, of Calgary, president of the league, has donated. They are twelve in number, for the members of the pennant-winning team. The souvenirs are handsomely made of the new Lawrenceville Hotel, at Stony Plain will be opened for business today, and quite a number from the city are on hand for the opening ceremony, which will be on an extensive scale.

### FOOTBALL.

The All Saints' Club have another meeting on Wednesday night to complete their organization for the year. There is said to be some excellent material in the congregation, and a fast team is assured.  
The Hamilton Tigers, Rugby champions of the Dominion, finished the season \$1,100 in the pool, after spending \$100 in prize money for each of the players. \$1,000 of this will be spent on improving the grounds.

The Young Men's Club at Queen's Avenue Presbyterian Church is taking football. If they would unite with the other church young men's clubs in the city a team ought to be forthcoming that would give a good account of itself in the city leagues.  
Look out for the brewery elves if they go into the city leagues. A well-known football authority says there's a bunch of good livers at present employed in the amber fluid manufactory, and jobs could no doubt be found for a few more if a team is entered in the city league.

At the annual meeting of the Midland Football League at Peterboro last week the association put itself on record as unalterably opposed to the committee to allow professionals and amateurs to play with or against one another without endangering the status of the latter.

### BASKETBALL.

At its last meeting the Upper Country League decided to admit no more new teams, and it will be a four club circuit for 1907.

The grand stand to be erected on the Edmonton grounds will have a seating capacity of 800, while the bleachers will accommodate at least a thousand more.  
Vancouver won the junior championship of British Columbia on Saturday by beating New Westminster 2-0. In the intermediate series, Vancouver Thistles and New Westminster are even up.

The question of the superiority of British Columbia and Vancouver football teams is still undecided. The game at Victoria on Saturday was a draw 3-3, with a 3-3 draw at half time.  
"Lilly" Helle, one of the Medicine Hat pitchers, claims to have been in the big league seventeen years. Possibly the Hat papers have made a typographical error; such leagues would read better.

The Elks will take charge of the opening day celebration at Edmonton, among the features of which will be a parade of all the athletic associations of the city, headed by the city band, the Lieutenant Governor and party and the members of the city council. Mayor Grisdale will pitch the first ball.

A. E. Humphries suggests that when the Lethbridge professional baseball team commences its procession to the Northern States, where it is said as publicity agent should be supplied with several hundred little cotton bags of the splendid turkey red wheat grown in this district. The bags are to be used in parties inquiring about Lethbridge district.

# Famous Geologists Report on Oil

What G.M. Dawson, one of Canada's Greatest Geologists says about it

## READ THESE FACTS

The Canadian Government Report for the year 1897 on pages 22-23-24-25 describing the Pelican River well.  
"The different strata, as encountered after this are set out in the subjoined log: I used some of the heavy petroleum or maltha that flowed from the well in raising steam, and it made an extremely good fuel."  
"If the hard slate stratum at 821-foot six inches had been pierced, a great flow of petroleum might, in my opinion, have been encountered, indeed it is altogether possible that at that depth we were within a few feet of a large body of Petroleum. Had it been struck while the flow of gas was in the unconquered condition, the result would have been disastrous, as there might have been no possible means of checking the flow. The flow of gas was so great that a cannon ball could not have been dropped down the pipe."  
"855 feet a good deal of gas." "748-768 struck gas and some oil at 750 feet quite a strong flow of gas at this point. Heavy oil similar to that struck before but of a higher specific gravity came out with the cuttings in the sand pump. The heavy oil seems mixed all through the sandstone and shale at this depth and it looks as though the tar sands had been entered at about 740 feet."  
"800-820. At 820 feet a tremendous flow of gas was struck which blew every drop of water out of the bore. The dust of gas could be heard for three miles or more. Soon it had completely dried the hole and was blowing a cloud of about fifty feet in the air."  
"820-821-8 inches Conglomerate mass of iron-pyrites nodules embedded in oil."  
"At 821-6 a very hard stratum of slate was encountered which we penetrated about three inches. We could get no water down the well on account of the strong flow of gas so we could make no further progress with the drill in this hard cutting. The danger to the men was so great that they refused to work longer over the bore. We then put the four and five eighth inch casing down to the very bottom hoping to shut off the gas but failed to do so."

The Canadian Government Report for the year 1898 on page 29A says regarding conditions at Egg Lake:

"Tarry or pitchy matter is stated to have been first found in ploughing on the Northwest Quarter of Section Thirty Township Fifty-six, Range Twenty-five, West of the Fourth Meridian. Several small excavations were then made and veins or layers of hardened pitch and pitch saturated sands were found."  
"A large amount of sand saturated with tar was lying beside this pit. We bailed the water out of this pit when the unsaturated material with pebbles was found to extend down to a depth of eight feet and through it was running many veins of hardened pitch. Below this a coarse moderately even grained and apparently horizontally bedded sand is reached. THIS SAND IS SATURATED WITH TAR."

The well drilled near Egg Lake by H. L. Williams to a depth of 550 feet shows the formation there to be identical with the Pelican River well to the depth drilled excepting that it was necessary to drill 100 feet deeper to strike the first large body of gas. The Affidavits of P. S. Gaudette, N. Hittinger, A. Guertin, J. S. Teffe and Avila Bransette, as follows:—I found gas escaping from said well in large quantities; that said gas when lighted would burn steadily with a flame twenty feet in height from the mouth of the well from which said gas was escaping.

The United States Government Report for the year 1902 says regarding oil near Edmonton.  
"The conditions are similar to the regions producing petroleum in California and will in all probability produce petroleum in quantities when there are sufficient facilities for transportation."

## GAS AND OIL

## WE HAVE THE GAS

We have, as is shown above, the very best indications for oil, in fact Mr. Dawson further states in his report for the year 1898 on page 31A: "Taking the proved existence of tarry petroleum at the Pelican and the indications at Egg Lake together we appear to have demonstration of the occurrence of such Hydrocarbons for a distance of over one hundred and fifty miles from and nearly at right angles to the direction of the natural outcrops of the 'tar sands' on the lower Athabasca."

We believe, and so do Canadian Government experts that we will strike oil

OUR STOCK IS FULLY PAID AND NON ASSESSABLE. A LIMITED AMOUNT OF THE TREASURY STOCK WILL BE SOLD AT 25 CENTS PER SHARE PAR VALUE ONE DOLLAR

Copies of the Canadian Government Reports and invoices of machinery purchased can be seen at the office of the Company.

**WANTED**—Grocery order clerk. Box 64 Bulletin.

### WHITE WHALE LAKE.

Meats. White and Short have a pair of men and teams getting their cut of logs to the saw mill. They estimate that they will have about 300,000 feet of lumber, and that all of it will be used in the settlement here. It is very evident that the coming season will be a busy one in the building line, as beside the usual new farm buildings in prospect, contracts have already been let for several summer homes by Edmontonians. Lumber is already on the ground for Key's A. Son's hotel, and plans are prepared and accepted for several large business buildings to be erected as soon as the town site questions are settled.

It now looks as though the lake was to be favored with about four towns instead of two, as has been the usual proposition. Each of the two roads has selected two locations, and the Grand Trunk seems to be closing up their deals at once.

It is with much regret that our people learn that the conditions imposed by the government on the use of the marl beds on the Indian reserve are such that the company have given up all hopes of putting in works here and have gone to Calgary with the \$500,000 company. This is a serious loss not only to our immediate neighborhood, which loses the benefit of a big supply of marl annually, but to all parts of the Northwest, where building operations are often seriously handicapped by being unable to get a sufficient supply of Portland cement.

Things are looking up for the west. The government has consented to the establishment of a post office, to be called Seba, and located on N.W. 7-5-55, with W. J. Wenden as postmaster. R. P. Cull has his store building well under way, and a complete stock of goods will be installed as soon as it is completed. C. H. Dunn has purchased the gasoline launch from Lorne York, and will have it make regular trips to the west end for passengers as soon as navigation opens.

C. H. Dunn is confined to his house with a gripe. C. A. Smith made a trip to Lac Ste. Anne with a load of beef last week. Mr. McAlroy made a trip to Edmonton this week. Many were the expressions of sincere regret when the news of the Bulletin's loss by fire was announced at the post office on Monday.

### CAMROSE.

Mr. Morris, of Cranbrook, B.C., partner of Mr. Harrower in the produce business, is located in Camrose as his headquarters. He regards the Camrose district as very promising for a large production of butter, eggs and poultry. The company will have several creameries under their control, including one at Camrose. They have established a market directly with the consumer and are promising quite an advance on last year's prices. Mr. Farley, of Red Deer, has secured a good deal of real estate in Camrose and intends making his home here.

A Camrose Cricket Club is being organized. A meeting for organization will be called soon. The Consolidated Land Company, composed of T. B. Thomas, A. Code and W. J. Thompson, and will open for business April 1st in the office now held by A. Code.

Camrose is assured a large brick manufacturing plant early this spring.

A large number of real estate deals are being made every day, Camrose being regarded as a good location. Building operations are evident in every part of the town. R. H. Innes and Mr. Adams are building fine residences.

The fire hall has been begun; Lars Larson's large harness shop is commencing work, and a new block south of the Merchants' Bank is to be started next week.

H. G. Vickery's new furnishing and tailoring store which opened this week, R. H. Camrose grows in the right way.

### BRIDGE BUILDERS ENTER-TAINED.

H. H. Dawson, police magistrate of St. Albert, entertained J. J. Johnson and members of the government bridge building party at his home on St. John's street, St. Albert, recently.

Cards were in order until late in the evening, when a sumptuous repast was served. While the guests were assembled about the table, the host took occasion to highly compliment Mr. Johnson, who is in charge of bridge construction for the province in this vicinity, and his party upon the steel span bridge just finished across the Sturgeon River, replacing the old St. Albert bridge, and assured his guests that their work was highly appreciated by the whole community. After the cigars, a toast was tendered in the opinion that the "judge" was a "jolly good fellow."

### SOCIAL.

Mr. W. A. Buchanan, the newly-appointed provincial librarian, has arrived from Lethbridge accompanied by Mrs. Buchanan. Mr. and Mrs. Buchanan are staying at the Cecil until they secure a house.

Tenders for License to Cut Timber on Dominion Lands in the Province of Alberta.

SEALED TENDERS addressed to the Commissioner of Dominion Lands, Department of the Interior, and marked on the envelope "Tender for Timber Berth No. 1335," will be received at this Department until 12 o'clock noon on Wednesday, the 12th day of June, 1907, for a license to cut timber on Berth No. 1335, comprising lands situated in the Province of Alberta, and described as follows:

Timber Berth No. 1335, commencing at a point on the Miette River, one mile below the first crossing of trail above the mouth of said river; thence up said river three miles in direct distance with a depth of one-half mile on each side thereof measured at right angles to the general bearing of said river within the berth, containing an area of three square miles, more or less.

The berth must be surveyed within one year after the date of the notice awarding the berth. The regulations under which a license will be issued, also printed forms of tender and envelope, may be obtained at this Department or at the office of the Crown Timber Agent at Edmonton, Alberta. Each tender must be accompanied by an accepted cheque on a chartered bank in favor of the Deputy of the Minister of the Interior, for the amount of the bonus which the applicant is prepared to pay for a license. The highest or any tender not necessarily accepted. No tender by telegraph will be entertained.

PERLEY G. KEYES, Secretary.

Department of the Interior, Ottawa, March 14th, 1907.

## DAY TO DAY

### WOMEN'S INTEREST IN MUNICIPAL AFFAIRS.

At the municipal election in Edmonton last December some of the candidates were making an energetic canvas for the votes of the women who had a right to vote.

What can be accomplished in this direction was evidenced in London recently on the election day of the seventh County Council. All the municipal reformers turned out in force, and the well-appointed carriages and motor cars of the "upper ten thousand" were busy conveying hundreds of women voters to the polls. This chance of a drive in a luxuriously equipped motor car, said to be a great factor in bringing out the rank and file of what are called "middle class" electors. The small tradespeople are whirled away from the business and whirled back again in the luxurious motor brougham of "Lady Black" before they realize that they are well used way.

The Woman's Municipal Reform League did a great deal of work, both as canvassers and conductors of voters. Women in costly tops were seated in carriages beside veritable "Gamps" and were seen with convoys of workmen piled one on the top of the other, just as they escaped the workrooms, on Saturday at noon. The vote polled was the largest on record, and this is greatly due to the efforts of the women, who make a systematic study of the question of registration of votes and the location of polling booths.

### HALL CAINE'S LATEST.

Hall Caine's latest, entitled "Drink," was written seventeen years ago. It is called a labor of love, and this point is emphasized by the fact that it is being sold by the Appletons for 10 cents a copy. England has already absorbed 300,000 copies at a similar price.

It is a peculiarly appealing story of poignant tenderness and beautiful purpose. It is also a powerful story, for it deals realistically with the mental torture of intelligent human beings. Robert Harcourt is in love with a beautiful and wealthy girl, Lucie Clousdale, who is a dipsomaniac by inheritance.

As all appeals to conscience, intelligence, religion and respectability avail naught, hypnotism is employed as a curative agency; but the cure does not last, although, who shall say that, in the new battle which the lovers fight with hope and love for their aids, something of the hypnotic influence does not continue to be exerted by the undaunted Harcourt?

A postscript to the volume reads as follows:

It all happened five and thirty years ago, and assuredly the blessing has thus far got the better of the curse. Hope! It is the one infallible physician. There is no evil it may not conquer, for where it cannot destroy the disease, it can drive away the fear that makes the disease fearful.

### SOCIAL.

Miss Marjorie and Miss Beatrice Saunders entertained a number of girl-friends at a cozy little tea given on Saturday in honor of Miss Emily Horn who is home from St. Hilda's for the Easter holidays. The guests at the bright little tea included the Misses, Emily Brown, Constantine Edgley, Bernice Blackett, Joan MacDonald, Jean Dawson, Gretta Mercer, Kathleen Pace, Jessie Harris, Louisa Siles and Irene Harbottle.

# LUMBER MANUFACTURERS GIVE EVIDENCE BEFORE COMMITTEE

Retailers in Alberta Make 20 per cent on Common Timber—80 per Cent of Mountain Mills Marketed in this Province.

(From our own special correspondence.)  
Ottawa, March 28.—Mr. Lord of Arrowshead, B.C., continued his evidence this afternoon before the special committee on the lumber price.

Conditions in Alberta.  
He thought that in Alberta, at any rate, the retailers usually make about 20 per cent on the common grade of lumber, and more on the higher grades. Eighty per cent of the Mountain Mills' product finds a market in Alberta.

Millings Company Not in Retail Trade.  
"The company does not interest in retail yards though he personally owned stock in several yards including one at Calgary, Alberta, one at Banff and another at Calgary. The lumberyard and land lumber and coal Co.

He denied that there was any penalty for breaking rules of the Mountain Mills Association contained in an article in a Calgary paper to the effect that the association was to be broken.

Protested Against Examination.  
Mr. L. A. Lewis of New Westminster, B.C., manager of the Mount

ain Mills Association, protested against the examination of the association's records.

(Canadian Associated Press Despatch.)  
New York, April 1.—The New York stock market today was the first active and buoyant since the beginning of the foreign attack. There was a time to time when the market seemed to be breaking up, but it was soon reformed.

(Canadian Associated Press Despatch.)  
Montreal, April 1.—This morning the market was active and buoyant, with a strong upward tendency.

(Canadian Associated Press Despatch.)  
Ottawa, April 1.—The market was active and buoyant, with a strong upward tendency.

(Canadian Associated Press Despatch.)  
Ottawa, April 1.—The market was active and buoyant, with a strong upward tendency.

# MILLS MADE NO DIVIDENDS

Lumber Manufacturers Tell Committee of Profiteers Operations

(From Our Own Special Correspondence.)

Ottawa, March 28.—Mr. Lord of Arrowshead was recalled by the committee investigating western lumber prices today. He claimed that the cost of logs had increased considerably since last year, while admitting that the cost of fodder for horses and of provisions for lumbermen had remained about the same.

He had advanced very sharply recently while the heavy snow had increased the difficulty of logging, but the cost of this had not yet been felt by the consumers. Logs last year cost all the way from \$1.50 to \$2.00 per thousand delivered at the mill, the average probably of \$1.75. The cost this year he said would be greater.

He said that his mill made about 17 cents per thousand on the cost, consisting of all expenses except the cost of the manufactured lumber was about \$1.25 and to this was added about \$1.50 for insurance, management, taxes, etc.

He had no need to find with the freight rates charged for hauling lumber.

He thought that his mill made about 17 cents per thousand on the cost, consisting of all expenses except the cost of the manufactured lumber was about \$1.25 and to this was added about \$1.50 for insurance, management, taxes, etc.

He had no need to find with the freight rates charged for hauling lumber.

# EDMONTON BULLETIN

TUESDAY, APRIL 8, 1907.

## EDUCATION AS AN INSTRUMENT OF IMPERIAL UNITY.

One of the most potent factors in promoting the growth of a healthy imperial spirit is the work carried on in the schools and colleges of the Empire. A marked federal tendency is beginning to characterize their work and aims. There is a growing feeling especially in the colonies to emphasize the symbol of a larger unity. The flag and Empire day are examples. Teachers and professors are striving to create a habit of mind in the young students favorable to the ultimate consideration of common interests and responsibilities. The British idea of civilization have taken a firm hold on the imagination of young men in all colonial universities. In the University of Toronto the imperial tone is deep and strong, in contrast to the more gradual spirit two decades ago.

The interchange of teachers is a distinctly federal tendency. The flow of teachers has hitherto been from the old to the new parts of the empire, but what is there to prevent some bright Rhodes scholar settling in some English college or our own Dr. Oler. It is difficult to estimate the influence of the Rhodes men at the heart of our system of higher education. Lord Roberts, always a safe authority on questions of this nature informs us that all schools of political thought look to higher education as a non-party centripetal force.

A movement is on foot to bring about periodical university conferences, having as their objects the conferring of degrees in allied colonial universities, and the conferring of post graduate and undergraduate study. Added to this, there is a tendency in each part of the empire towards the integration of educational efforts which indicates the official responsibility for education left their isolation, and are resolved to storm the central position. A real positive impulse will be given to this movement by the federal conference of the "League of the Empire" in London this year which may pave the way for the organization of an imperial Bureau of Education.

Imperial federation as an occupation must stand or fall by the test of its power to raise our national ideals. If it can do this, it is worth fighting for at any sacrifice; if it cannot, there is then no moral incentive to unity. That incentive to a higher sense of responsibility is the outcome of the college and the home, and ought to be the final argument of every statesman who is its advocate.

## SOFTENING THE WATER.

A great deal has been written from time to time about the importance of supplying pure water to our citizens for domestic use, and the city authorities have very wisely and opportunely moved the site of the pumping station beyond the reach of surface contamination.

While new and improved precautions are being employed to ensure a supply of wholesome water it might also be inquired into by experts to ascertain if the river water would be any more wholesome if a softening plant were installed. Just now the controllers of the city of Winnipeg have closed the softening plant and the action has been met with a storm of disapproval. It may be here observed that in Winnipeg the water treated by the softening process is drawn from arctic wells, and more liable to be impregnated with carbonate rendering it very hard. At the same time however, the water of our western rivers is impregnated with a great deal of calcium from the chalky strata of the plains and at certain seasons would undoubtedly be pure if softened.

## THE FEAR OF MORMONISM PART.

Shelby M. Cullen, chairman of the Foreign Relations Committee in the United States Senate, writing in the current number of the *Week American Review*, upon the fear of Mormonism and the finding of the United States Senate in the Smoot investigation, completely exonerates Senator Smoot from the charge of polygamy. In his article he cites the case, the scrupulous judicial care with which the Senate examined the enormous volume of evidence taken.

Senator Cullen's record is one of persistent and unqualified opposition to Mormonism, and for that reason his words are significant. He states that "It is perfectly obvious that the pills of Mormonism are not what they

were." Continuing, he writes as follows:

"I am satisfied that polygamy has been particularly obliterated; that this fact is lived in the midst of de-bilitation, even from its fellow Mormons; that nothing further is needed to wholly stifle the miserable remnant that remains but the spirit of decency which found alliance with the true and the honorable has insinuated through the very heart of Mormonism, and must continue to insinuate without the aid of external agencies. Incidentally, I am satisfied that Reed Smoot has never practiced polygamy, but on the contrary has always set his face against it, both in private and public."

The fact of the matter is polygamy cannot exist in any community brought into contact with the world through the facilities of modern intercourse and the necessities of commerce. We have little to fear from this evil of Mormonism today.

## NOTES AND COMMENT.

The Alberta House law is more restrictive than that of Ontario, and yet is not strict enough for the Toronto News.

The bill for the prevention of strikes and lockouts that passed the Dominion House the other day is a splendid piece of legislation.

It yet remains for the editor of the *Stettler Independent* to explain how even the most fanciful reporter could make a "fanciful description" of a suicide near his town.

If Harry Thaw was worth a few millions more he might have no fear of the issue of the trial. He could just spin it out beyond the natural three score and ten.

## TERRIBLE FATE OF ITALIAN WOMAN.

(Canadian Associated Press Despatch) New York, April 1.—The (Miles) body of Mrs. Marie Trope, aged 34, an Italian was found today lying in a hallway outside her apartment in Union street, Brooklyn. Her throat was cut, and a bloody carving knife with which the murder was done, lay beside her. A hawk said to belong to the father, Carlo Lancia, who occupied another apartment in the building, was found nearby. Lancia, who had just completed a term in jail for carrying concealed weapons could not be found. His son, Arthur, learning of his father's death, took a knife and started in search of his father.

## PHILADELPHIA GAS FRANCHISE MAYOR RETIRES.

(Canadian Associated Press Despatch) Philadelphia, Pa., April 1.—John Weaver, today completed his four years as Mayor of Philadelphia and was succeeded by John E. Barbours, who was elected on a straight party ticket.

## TO CONTEST BISHOP CHARITY.

(Canadian Associated Press Despatch) Ottawa, April 8.—Justice Cline will preside at the spring session of the court. The action to test the validity of the will of the late Pierre Manseau is among the suits. Rev. Canon St. Denis has \$10,000 of an estate to be distributed in charity and appears as the defendant.

## ENFORCED BOGGY APT.

(Canadian Associated Press Despatch) Gloucester, April 1.—Scott act, city council dismissed police officer Bert Lawson. Lawson enforced Scott act by raiding bar rooms and destroying goods found on premises. Moreover he "lawed up" to him. But men who backed him up were looking for jobs and Lawson is now seeking for jobs.

## PURSE OF GOLD FOR FATHER RYAN.

(Canadian Associated Press Despatch) Fredericton, N.B., April 1.—The people of St. Anthony and St. Mary's, York county, have presented Rev. Father John J. Ryan, with purse of \$500 in gold as a mark of their esteem.

## MANY APPLICATIONS FOR SECRETARYSHIP.

The council of the Board of Trade will meet this afternoon to appoint a secretary to the Board of Trade in place of Mr. F. T. Fisher, who resigned. The Board was unwillingly compelled to accept at the recent annual meeting.

There are in all about one hundred and fifty applications, including a large number of gentlemen well known throughout the west.

## Around the City

The operative society will produce the "Pirates of Penzance" in the Theatre on April 8.

A. T. Cushing will address the young men's club of McDougall church on Thursday night. His subject is "The Power of Commercial Life."

Mr. J. L. Leonard, of Athabasca Landing, who has been in the city for the last week purchasing supplies for his store in the northwest of the north, returned today.

The flag at Alberta college floats at half mast today out of respect for the late Mr. R. A. Adams, one of the students, who met his death yesterday in a railway accident.

The Daughters of the Empire, West-ward Ho Chapter, will hold their regular meeting on Wednesday afternoon at 3:30 at the home of Mrs. F. H. Hobson, 7th street.

A second Old Fellows lodge will be instituted in Edmonton on Thursday afternoon. A large number of new candidates will be initiated at the regular meeting the same evening.

—Matt Nelson, of Minot, North Dakota, who claims the premier's pugilistic honors of that state, is matched to box fifteen rounds with Barney Mullin, the Northwest champion, at Edmonton, on April 10th, at the Theatre rink.

Robert Anderson, one of the members of the Edmonton fire brigade, was yesterday summoned to Spokane Sunday to attend his mother, who is critically ill.

Typhoid cases continue to come in to the hospitals in about the same number as formerly. There are now nineteen cases in the public hospital.

A serious operation was performed yesterday at the general hospital upon Mrs. McGee of this city. The operation was successful, and the patient is doing nicely.

Alderman F. Daly left Monday for Calgary to attend the fat stock show in that city the first few days of this week. He will be busy among the women and cattle breeders to induce them to exhibit at the provincial exhibition here in July.

—The Easter services at All Saints church this year were the most impressive and satisfactory in the history of the congregation. The number of communicants at the two morning services was 350 and at the evening service all the available seating space was utilized. It is expected when the returns are all in the amount asked for as a special Easter offering will be realized, if not exceeded.

The premises on Jasper avenue known as the 98 store are being renovated at present, and in a few days Duhamel & Deane will be in the sporting goods and china and glassware lines. Mr. Duhamel was formerly head clerk with Mr. Techer, in the same stand, and Mr. Deane is from Quebec—a son of the late Senator Deane.

Mr. O. Demais, who leaves shortly to reside in the States, was the guest of honor at a very pleasant dance given last night in the large dining room of the Prince Arthur cafe. Mr. Chester Kamp and Mr. E. Eschall were the hosts. Mrs. McDonald and Mrs. Adams the chaperones, and about twenty-two couples were present. The tables were beautifully decorated for the occasion.

## Coal Conference

(Continued from Page 1)

inequality, and the fair way to deal with such a situation is to endeavor to make conditions and wages more uniform. This, necessarily, means some decrease and some adjustments. Mr. Sherman was very strong of opinion that this was the only way to deal with the situation. He was willing that some arrangement in the nature of a modus vivendi, should be come to for a year. As the position became daily more pronounced, an agreement was come to, but it is perhaps after all better that things should be thoroughly harmonized now."

## PERSONAL

Mr. Black, secretary of the Indian office, Stony Plain, accompanied by Mrs. Black, spent Saturday in the city.

Mrs. Dinanore and Miss Scott, of Wetaskiwin, were guests of Mrs. J. O. Scott, Kinsington avenue, during the Easter holidays.

Mrs. Ada Burwash, of Port Elgin, arrived in Edmonton on Saturday, and will make her home here in future, having accepted a position in the city.

## A WEST END RAID.

In consequence of a west end raid a few nights ago by the provincial detective and the mounted police, the following fines were this morning imposed at the B.N.W.M.P. barracks by Inspector Worsley: Hannah Rowe, alias Lucile Myers, \$100 and costs, for keeping liquor for sale without a license, liquor confiscated; \$50 and costs for keeping a house of ill fame; Mrs. McInnery, of Strathcona, for the nine months ending March 31st, show that ninety cars of settlers' effects have arrived consigned to Strathcona, and also 2,641 settlers have passed through her hands.

## WOLF CATCH NETS HIM 8000.

Douglas and Mrs. Wm. Chalmers Record Wolf Trap of Year.

(Canadian Associated Press Despatch) Dauphin, April 1.—Alex. Boyle, who lives a few miles south east of this town, claims a record for trapping twelve during the past winter. He has 200 to his credit. Allowing 10¢ for the skins and 14¢ bounty the catch nets him \$200.

## TORONTO'S BUILDING PERMITS \$1,000,000.

(Canadian Associated Press Despatch) Toronto, April 1.—The building permits for March amounted to \$1,000,000, which is half a million ahead of last March.

## OLIVER MOWAT'S SISTER ILL.

TO ATTEND.

(Canadian Associated Press Despatch) Dauphin, April 1.—Mrs. John Duff, surviving sister of the late Oliver Mowat, is seriously ill. Her children have been called to her bedside.

## OBVIOUSLY A SUICIDE.

(Canadian Associated Press Despatch) Delhi, Oct. 1.—Today the body of H. B. Pettit was found hanging by a rope in a room above his blacksmith shop. The man had been missing since Friday.

## MONTREAL MAN CUTS HIS THROAT.

(Canadian Associated Press Despatch) Montreal, April 1.—Thomas George Gumbay, 46 years of age, living at 384 Madeline street, cut his throat today. He was a married man and no reason was assigned for the act.

## CORPORATIONS PAYING PROMPTLY.

(Canadian Associated Press Despatch) Winnipeg, April 2.—To-day the tax imposed by the local government on corporations, is due, and the amounts are coming in promptly.

## FUNCTION WHICH PREMIER IS

(Canadian Associated Press Despatch) Ottawa, April 1.—Sir Wilfrid Laurier is booked to attend a social function on the day of his arrival in London. The dinner which the Rightly club proposed to give to the colonial premier cannot be held on the date originally fixed, namely May 2nd. That day has been taken by Admiral Tye for a great naval display at Portsmouth in honor of the colonial visitors, and difficulties respecting the party to return to London in time. Accordingly, the Rightly club dinner will be held on Saturday, April 2nd, at which day the premier is to assemble in London.

## STRATHCONA

LOCAL.

His car of machinery, principally for farming implement dealers, have arrived at Strathcona.

Miss Helen Lawrence, who has been on the Strathcona schools wall for some time, has accepted a position on the Edmonton teaching staff.

The pulpit of the Presbyterian Church was occupied on Sunday by Rev. Mr. Douglas in the morning and Rev. Mr. Jaffins in the evening.

Rev. Mr. Leitch, Vancouver, has declined the invitation to the pastorate of the Baptist Church here. A meeting will be held after the proper service Wednesday night to consider the call of another prospective pastor.

Adolphus Mills, Leamington, Ont., brother of Mayor Mills, has arrived in Strathcona, and will likely take up his residence here. Mr. Mills will shortly move his family, and go extensively into the purchase of real estate.

The regular weekly meeting of the city council tonight promises to be an interesting one, as a number of important questions will come up for solution. Among them will be the appointment of a commissioner or commissioners, and the boulevarding of a number of the city streets.

The urgent need of a sidewalk from the railway crossing here to the east end of the mild weather. At present the only method of getting from the platform to the hotels without slipping through pools of water is on the Edmonton house or a tight rope walk along one of the rails of the track. There is also need of considerable attention in other parts of the city.

O. Bush, ex-president of the Board of Trade, is on a trip to Winnipeg. He is expected home on Friday next.

The report of the immigration officer, Mr. McIntyre, of Strathcona, for the nine months ending March 31st, show that ninety cars of settlers' effects have arrived consigned to Strathcona, and also 2,641 settlers have passed through her hands.

## WATER SUPPLY THREATENED.

The water supply of Strathcona has been temporarily threatened during the past week, owing to the closing up of the intake by clay. As a result, despite the pumping at the power house, the engineer has been unable to keep up the pressure, and at times the water here completely stopped. The only remedy appears to be the use of dynamite at the intake, and this method will be discussed at the meeting of the city council this evening.

## REFUSE TO CREATE NEW DEPARTMENT.

(Canadian Associated Press Despatch) Toronto, April 1.—The creation of a department of health as a branch of the government, urged upon Premier Whitney and other members of the government by a deputation representing the Ontario Medical association, has been refused.

## DEATHS IN ONTARIO IN MARCH.

(Canadian Associated Press Despatch) Toronto, April 1.—Returns from 195 division registrars to the provincial board of health show that the population of 1,100,000, or 84 per cent. of inhabitants of the province, the total number of deaths during March were 2,700, or a rate of 15 per thousand.
